# WANT TO SAVE MONEY ON ELECTRICAL BILLS? OUR TECHNOLOGY WILL MAKE THAT HAPPEN!

Enhancing power conditioning through reduced harmonic fluctuations and other interferences at your facility. Improving electrical efficiency reducing heat and line loss by addressing the following:

## Here's How We Do it...

- Addressing power factor correction at the individual load not just at the meter
- Eliminating power factor penalties
- Addressing heat and friction issues in refrigeration and air-conditioning
- Lighting retrofits

**SIMPLY PUT:** Your ROI is guaranteed by Lloyd's of London, great payback on your investment, long term benefits to your corporation.

- Increased capacity of up to 25%
- UP TO 25% Reduction in annual electrical cost
- Extended life of equipment because of optimized electrical current input
- Improved power conditioning
- Voltage fluctuation elimination
- Reduced carbon footprint
- Improved efficiency of air conditioning & refrigeration

**SIMPLY PUT:** We save you money to re-invest into what you do best!

## OUR PROCESS

**You're involved every step of the way!**

Go to our website for your **FREE assessment!** Just submit electrical bills for the past 12 months and complete the form. Or you can call or email for more information at [info@goldleafenergy.com](mailto:info@goldleafenergy.com). We'll get back to you within 24 hours!

## CAN WE ADD YOU TO OUR CLIENT LIST?

At **Gold Leaf Energy Systems**, we value our clients and appreciate that they put their trust in our technology and Guarantee system. We service a broad range of customers in a multitude of industries in locations around the globe. Their facilities could be single locations in simple warehouse space or multiple industrial complexes with electrical costs ranging from **\$25,000 to \$1 million per month**. Some installations are straight forward lighting projects. Others are extensive power quality and conditioning corrections with technologies that address equipment, refrigeration air conditioning and lighting. So, you can be certain we have a solution that fits your industry. **Our Clients include:**

## TAKE OUR INNOVATION ON THE ROAD!

Save \$ on transportation costs!

Ask us how our leading-edge technologies can reduce fuel costs for your trucking, construction, or refrigerated fleet and increase the life of your equipment.

**Gold Leaf saves \$\$ on transportation costs!**

**GOLD LEAF**  
ENERGY SYSTEMS INC

- TYPICAL RESULTS**
- Increased fuel economy
  - improvements in horsepower
  - protection on dry starts
  - typically pays for itself within the first few fill ups on a large tractor trailer, or large equipment

We're part of collaborative business with over 35-years experience and thousands of installations in 60 countries.

## If you're concerned with...

- Rising electrical costs
- Bumping up against your electrical capacity
- Poor power quality
- Low power factor and too much down time
- Frequent motor breakdowns
- Refrigeration systems not working as efficiently as expected
- Machinery not being as productive as it could be

## Here's what we offer....

- No ongoing internal staff maintenance or management. No hidden costs.
- No changes to any process so you stay focused on what your company does best.
- Factoring in the whole plant or operation then work in the background to save you money.
  - Providing it all: equipment, labour, guarantee on equipment and savings, and financing to keep you cash flow positive.
  - Servicing facilities with one or multiple locations including manufacturing, grocery chains, hotels, cold storage and MORE.
